Skills

- Python
- DataBase Management (MySQL)
- Quick learner
- Django Framework
- NumPY
- communications
- Pandas
- IOT programmer
- Matplotlib
- web automation with python
- SkLearn
- node automation testing

Profile

Results-driven Python developer skilled at writing efficient, reusable, testable, and scalable code for web and desktop applications. Proficient with Django and FastAPI, experienced in Postgres and MySQL database design and optimization, and fluent with data tools (Pandas, NumPy, Matplotlib) for ML/AI model development and deployment. Built automation scripts for web portals, developed Node.js automation tests, and created Windows desktop applications; delivered multiple production web projects and trained students in IoT/robotics. Quick learner with strong communication and problem-solving skills.

Education

Computer Engineering (Diploma) Jul 2019 - May 2023
Alpha Computer Engineering and Technology, Ahmedabad, India

- Learned the fundamentals of digital electronics including logic gates, microprocessors, and circuit design.
- Gained proficiency in programming languages such as C and C++ to develop embedded systems and software applications.
- Acquired knowledge in networking concepts, protocols, and network security essential for computer communication.

Certified Python Developer with Django and Data Scientists Aug 2021 - Jul 2023

Tops Technologies Pvt. Ltd, Ahmedabad, India

- Mastered Python programming with a focus on writing clean, efficient, and maintainable code using Django framework.
- Gained expertise in building and deploying scalable web applications and RESTful APIs using Django REST Framework.
- Developed proficiency in data analysis, manipulation, and visualization utilizing Python libraries such as Pandas, NumPy, and Matplotlib.
- Implemented machine learning algorithms and data science techniques for predictive modeling and data-driven decision making.
- Acquired practical skills in integrating Django applications with data science workflows to enhance application intelligence and user experience.

Certified Counterespionage and Information Security Manager (CCISM) Aug 2022 - May 2023

Pristine InfoSolutions Pvt. Ltd., Ahmedabad, India

- Developed skills in risk assessment, vulnerability analysis, and mitigation planning to strengthen cybersecurity posture.
- Gained expertise in regulatory compliance and cybersecurity frameworks such as ISO 27001 and NIST standards.
- Learned to design, implement, and manage comprehensive information security programs to protect organizational assets.
- Trained in secure communication protocols, encryption technologies, and access control mechanisms to safeguard sensitive information.

Employment

core python developer Nov 2024 - Present
trust-pays24, Dubai

- Build and maintain backend services and APIs using Python (FastAPI/Django) for payment and finance-related features.
- Develop data processing pipelines with Pandas and NumPy for analytics and

Scipy	
windows app designer

Hobbies

- Cryptocurrency trading
- playing cricket and football
- engaging in chess
- learning about new technologies in my free time

- reporting, and implement unit tests and CI workflows to ensure reliability.
- Containerized applications with Docker, collaborated with cross-functional teams to deploy to cloud environments, and troubleshoot production issues to improve stability.

IOT Trainer Apr 2023 - Oct 2024
Cosmos Castle International School - Green Campus, Ahmedabad, Bopal, Gujarat, India

- Designed and delivered hands-on IoT and robotics curriculum for grades 1 6, combining electronics, microcontrollers and programming fundamentals.
- Created practical lab exercises and guided students through end-to-end projects to reinforce problem-solving and build portfolio pieces.
- Organized classroom demonstrations and small competitions to increase engagement and track learning outcomes.

Internship Trainee Jun 2021 - Sep 2023
TOPS Technologies Pvt. Ltd, Ahmedabad

- Developed full-stack web applications using Python and Django, delivering projects such as E-service, Digital Society, Beechat, and Jobs Finder.
- Designed database schemas (MySQL/Postgres), implemented Django ORM models and RESTful APIs, and integrated frontend components for seamless UX.
- Optimized SQL queries, wrote unit tests, and collaborated with teammates on deployments and issue resolution to ensure reliable production releases.
- Collaborated with the development team to write unit tests and implement continuous integration workflows, enhancing code reliability.
- Participated in containerizing applications with Docker and deploying them to cloud environments under supervision.
